

Mixtures Visual Journal Page

Create a visual journal page to show what you know about **MIXTURES**. Some things to include are:

- What is a mixture?
- Name and describe homogeneous mixtures. Give an example.
- Name and describe heterogeneous mixtures. Give an example.
- Solution
- Dissolving
- Solute
- Solvent
- How different types of mixtures can be separated

You may need to use more than one journal page for all of the information and pictures.

Remember to include:

- a BBB title
- date
- colour (pencil crayon or crayon; marker for outlining only)
- a mix of information (in your OWN words) and relevant pictures/ diagrams

EDIT for conventions (COPS)!
